Technical Bulletin TB-2020-03

I. Revisions to Modified Bituminous (MB) Application Standards.

On June 5th, 2020, ARCA Warranty Ltd. approved a revision to the Modified Bituminous (MB) application standards, removing the requirement to remove an existing membrane on a protected membrane assembly replacement.

Old Standard

MB 10.5.1.2.

The membrane and Type 4 extruded polystyrene insulation shall be removed and replaced with new material.

New Standard

MB 10.5.1.2.

It is recommended that the Type 4 extruded polystyrene insulation be removed and replaced with new material.

Changes will be referenced in the ARCA Roofing Application Standards Manual.
