

Fall 2024

Members statement for use in Bid documents re ESG

Environmental

We are active members of ARCA and as such, we share in the ARCA ESG plan and carbon capture strategy.

ARCA owns 160 acres with 166,000 trees planted and managed specifically for ARCA by Sora Ecological.

The members of ARCA unanimously sanctioned this green initiative to help meet the expectations of many of our customers who hope to partner with trade contractors who have a robust ESG plan.

Social

Diversity in the roofing industry is not new. ARCA contractors have always had a diverse workforce and continue to embrace workers from all aspects of society.

Governance

In anticipation of rigorous review by our customers, ARCA follows the guidelines of the CSA-116 standard.

If you require more information on our specific ESG achievements, please contact us directly.
